When registering the tool on our website, please make sure that the serial number and register password that you input are correct. On the tool itself, you can press on **Setup->About** to double check the serial number and register password. If you only have the S/N, please contact our technical support to check out the register password.

Update via Computer:

1. Log in our website with your Autel ID and password, and then download the latest PC Suite for your tool from your account. <u>http://pro.auteltech.com/</u>
